SUMMARY

Motivated and detail-oriented Web Developer with practical experience in Laravel, WordPress, PHP, and MySQL. Skilled in building dynamic admin panels, e-commerce features, and REST API integrations. Strong expertise in database design, responsive UI development, and delivering scalable web solutions.

TECHNICAL SKILLS

Languages: PHP, JavaScript, HTML5, CSS3, MySQL.
Frameworks: Laravel, WordPress, Bootstrap, jQuery.
Tools: Git, REST API, AJAX, Yajra DataTables, OOP.

EXPERIENCE

2023 – Present

Web Developer (PHP With Laravel)

Bio-Xin Cosmeceuticals | Dhaka

- Developed and maintained scalable e-commerce platforms using Laravel, improving system reliability and performance for daily business operations.
- Designed and implemented dynamic admin panels with Role-Based Access Control (RBAC), streamlining product, order, and user management workflows.
- Optimized complex MySQL queries and database relationships, reducing page load time and improving data retrieval efficiency by up to **40%**.
- Integrated RESTful APIs for third-party services, enhancing system interoperability and enabling seamless data exchange.
- Implemented server-side processing using Yajra DataTables to efficiently handle **10,000+ records** with fast search and pagination.
- Collaborated with cross-functional teams (design, marketing) to deliver responsive UI and improve overall user experience.
- Applied clean code practices and MVC architecture to ensure maintainable, scalable, and production-ready applications.
- Developed and maintained a high-traffic e-commerce platform handling **100,000+ monthly users**, ensuring system stability, fast response times, and seamless user experience.

Laravel / Eloquent ORM / MySQL / REST API / RBAC / Yajra DataTables

Freelance

Part-time WordPress Developer

Remote

- Developed and customized WordPress themes and plugins for e-commerce via WooCommerce.
- Improved performance and SEO using caching, image optimization, and meta-tag configuration.
- Implemented responsive designs using Bootstrap, custom CSS, and Elementor.

WordPress / WooCommerce / SEO / Elementor

KEY PROJECTS

Laravel

Blood Fighters Platform

Live Link

Built a full-stack donation platform using MVC architecture. Automated the donor search-and-filter process, reducing matching time from minutes to seconds. Integrated Yajra DataTables for server-side pagination and developed an SEO-friendly routing system for the blog module, improving organic search indexing.

Laravel

Bio-Xin E-commerce Website

Live Link

Developed a scalable e-commerce platform with Role-Based Access Control (RBAC). Optimized complex MySQL queries using Eloquent relationships, which **reduced page load time by 40%**. Implemented custom middleware for 100% data isolation and used server-side processing to handle 10,000+ records without lag.

Laravel

Enterprise Admin Boilerplate (Super Admin)

GitHub Repository

Developed an enterprise-grade Laravel 10 boilerplate designed for scalable admin panel development. Built a modular architecture with reusable components, enabling rapid feature development and maintainability. Implemented secure authentication, RESTful API support, role-based access control (RBAC), and optimized database structure for high performance. This starter kit reduces development time for large-scale applications and ensures clean code organization.

WordPress

Bio-Xin Blog Website

Live Link

Designed a fully responsive blog site achieving a **90+ PageSpeed Insights score**. Implemented WebP image compression, lazy loading, and advanced caching, significantly increasing mobile user retention and performance.
